Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a maize variety having all of the physiological and morphological characteristics as the claimed maize variety designated LH730. Cummings (US Patent 6,812,388) teaches a corn variety that has many of the same characteristics as the claimed variety. The prior art corn variety taught by Cummings has a pendant position of the ear instead of an upright position; and light green silk instead of a green-yellow silk, for example. In addition, the prior art corn variety was derived from different parent varieties than variety LH730.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

REQUIREMENT OF ALLOWANCE UNDER 37 CFR §§ 1.801-1.809

The Deposit Statement filed December 8, 2003 is deemed in accordance with 37 CFR §§ 1.801-1.809. Therefore, no 35 USC § 112, first paragraph rejection has been maintained even though it is apparent that LH730 maize seed is essential to the claimed invention and that the deposit is necessary for an adequate written description and enablement for the claimed invention.

Since the application is otherwise in condition for allowance except for the needed deposit of LH730 seed and since the Office has received written assurance that an acceptable deposit will be made on or before payment of the issue fee, the Office is authorized to mail Applicant a Notice of Allowance and Issue Fee Due together with a requirement that the needed deposit be made within THREE (3) MONTHS of the mail date of this letter (see 37 CFR § 1.809(c)).

Under 37 CFR 1.809(c)(d) an applicant is required to make a deposit of seed within three months after the mailing date of the Notice Of Allowance and Issue Fee Due. The period for satisfying this requirement is extendible under § 1.136, however, failure to make the needed deposit of seeds of LH730 will result in abandonment of the application for failure to prosecute.

Art Unit: 1638

The all blank lines in the specification in lieu of the deposit number, and all claims which refer to the instant seeds by name, must be amended to include the deposit accession number. These amendments should be submitted before the payment of the issue fee as an Amendment After Allowance under 37 CFR 1.312. If the amendment is received after the payment of the issue fee the same should be made under the provisions of 37 CFR 1.312(a) and a petition filed under 37 CFR 1.183 to waive the requirement of 37 CFR 1.312 that the amendment be filed before or with payment of the issue fee, that is, it must be accompanied by a fee in accordance with 37 CFR 1.17(i) and a petition which includes "a showing of good and sufficient reasons why the amendment is necessary and was not earlier presented and why justice requires waiver of the rule"). Finally, the statement of deposit in the specification shall contain:

- (1) The accession number for the deposit(s);
- (2) The date of the deposit(s);
- (3) A description of the deposited biological material sufficient to specifically identify and to permit examination; and
- (4) The name and address of the depository. (See 37 CFR 1.809(d)).
